ARCHAEOLOGY - ANCIENT AMERICA IN 1491* [Johnson, Archaeologist, B.]

What was this land like, in 1491, before it was 'discovered' by Europeans? What can the Science of Archaeology tell us about the ancient and highly sophisticated civilizations of Native Americans, the so-called "Columbian Exchange" and its consequences, and the gifts Native Americans have given to our modern world? You will be astonished to learn the scope and extent of ancient civilizations in North & South America, but also how probably 80% of these people vanished before they ever saw a European. Learn about cities & civilizations as grand as anything in the Old World. There will be more emphasis on rock art from other cultures, this time around. We hope to surprise you with some rock art that you may not have seen before, that goes back much farther in time than what we usually see here in North America. The class is REAL ARCHAEOLOGY, taught by a REAL ARCHAEOLOGIST, based on a lifetime of professional work & research, updated with frequent attendance at professional conferences. Subjects will be presented with a wide variety of media formats, from PowerPoint lectures, to Videos and DVDs, with original Native flute music and digital paintings. Our classes are FUN as well as informative. Previous classes are NOT a prerequisite. If you have taken our classes before- don't worry- you won't be bored! Classes are inter-related but NEVER exactly the same. We don't want to be bored, either! Please register early- Class size is limited.

DANCE - WEST COAST SWING - BEGINNING* [Choi-Haun, S.]

West Coast Swing is a “Fusion” dance that originated in the late 1940’s as lindy-hop became more and more popular on the Western Coast of America and a new style of music called “Rock and Roll” emerged. It is an improvised dance on an imaginary “Slot” that gives the follower (traditionally female) the freedom to stylize her movements within the framework of her lead (traditionally male). The freedom of the dance attracts many dancers with backgrounds that range from Ballet, Tap, Hip-hop, Cheer and other forms of Ballroom who are looking for a great and exciting experience in the “Partner Dancing” realm. In this beginning class partners will be maximizing the social dance experience by dancing with many different partners throughout the course (Partners are welcome). The music, style, feel, rhythm and instructions are appropriate for all dancers ages 8 to 88+ and will be taught at a beginner’s level to introduce everyone to the dance floor!

HUNTER EDUCATION - INTERNET COURSE [Jensen, B.]

Every hunter born after 1965 is required by Utah State Law to complete a Hunter Education Course. The Internet Hunters Education Course consists of two parts: the online portion, and the in person test/field day portion. This class is not easier than the Traditional Course; the homework may take more time, but you can do it at your own convenience. Go to wildlife.utah.gov and read all the instructions for the Hunters Education Internet Course; then go to homestudy.ihea.com for the required study materials. All coursework needs to be completed before the test and field day. Students must print out all 14 quiz results and bring them to the first day of class or they will not be allowed to participate. The in person field day must include 4 hours of instruction on Firearm Safety, Hunter Responsibility & Ethics, and Wildlife Identification with an Instructor. Upon completion of instruction, each student will take a written exam. The field shoot day will usually be held on a Saturday with shooting times and places to be announced. You must first obtain a Hunter Education Registration Certificate for $10 from any Division of Wildlife Resources license agent (most sporting goods stores) and bring your certificate on the first day of class. Students under 18 yrs old must have their parents' or legal guardians' approval/signature on the certificate. Students must bring their own gun and 50 rounds of ammo on the field shoot day. Upon the successful completion of this course, the instructor will validate the small game license for the student and mail their Hunter Education "blue card" to the address listed on the certificate. *In order to better serve our customers, a minimum enrollment must be met. You will be notified 2 business days before the first class meeting if the class will be cancelled. Refunds will be issued promptly if necessary with no refund fee charged. If the class carries, registration will continue until the first class session. No refunds will be given if and when classes are missed by the student. There will be a 10% refund fee charged to students who cancel their own registration.*

SELF-PROTECTION - A COMPREHENSIVE PERSONAL SAFETY PROGRAM* [Eicher, T.]
This comprehensive course is open to men and women 15 years and older who want to be safer in life. This course teaches empowerment, prevention, and restorative/healing concepts. Thus, it is an excellent course for those who have experienced any type of violence or assault, who are beginning college, going on a mission, or who are beginning to date for the first time or anew. The course is called Personal Safety rather than self-defense because it is holistic in its approach. It surpasses a solely educational experience and is more productive than exclusive self-defense training. Thus, the course is designed to be biopsychosocial; strengthening cognitive awareness, social effectiveness, and physical self-defense. The Personal Safety course awakens awareness, self-confidence, a personal commitment to healthy boundaries, and trust in one’s physical abilities. This course examines the socialization that makes us more vulnerable to assault and violence, risk reduction, and the limits of attack avoidance. The course also covers the effects of assault on a person’s psychology, development, and the healing process. Concepts are presented through lecture, class discussion, audio/visual materials, case studies, guest lecturers, active learning in the gym/lab and out on the field of life. Strategies for avoiding dangerous situations and self-defense tactics and techniques are taught, and each student will have the option to experience two simulated fights.

WATERCOLOR - AN INTRODUCTION* [Bramwell, D.]

Have you always wanted to learn to paint but were just too intimidated by the whole process? This is the class for you! Watercolor painting is the fresh, clean, fast, and fun way to paint a picture. With low start-up cost this method of painting is a great way to "get your feet wet" without breaking the bank. We will start at a beginner's pace and teach you the basics about the tools and materials, glossary of terms, and basic techniques. As we progress you'll learn how to plan and compose a painting, choose a color palette, and learn techniques for skies, trees, mountains, rocks, water, shadows, and reflections. The emphasis of this class will be on teaching art principles and techniques that will enable the student freedom in being personally creative.

WRITING - WORD MAGIC FOR WRITERS OF ALL LEVELS* [Grenier, V.]

This class isn't English or Language Arts. You don't need to be an expert in grammar or have a masters in Literature. This class is for anyone who writes: poems, fiction, non-fiction, screenplays, etc. How you use language can be powerful and a source of enchantment to win readers. Students will hone their author/reading ear for language, receive a broader and more conscious choice of strategy, learn how to write with a stronger voice, rhythm, and how to pull on the emotions of the readers. The astute author takes mere words and animates them with allusion and artistry by drawing on the numerous tricks and techniques of the trade learned in this class.

Session: 1
Date: Feb 3 - Apr 6
Days: W
Time: 6-8:00 PM
Fee: $60.00
This class will help you write poems that will impact readers and editors, emotionally and intellectually; and hopefully get more of your poems published, if that's your goal. If not, this class will still help you write better poems, so you can amaze your friends and other poets. Important trends and theories in poetry, contemporary and historical, will be discussed, and students may submit their work for class-evaluation. But it's not required. It's recommended that students subscribe online to “The Writer's Almanac, with Garrison Keillor” (don't worry, it's free), and to bring I-Pads or phones to class, along with note-taking materials.
